

## LM-HD Lateral Heavy Duty Mount Kit, Fiberglass Top

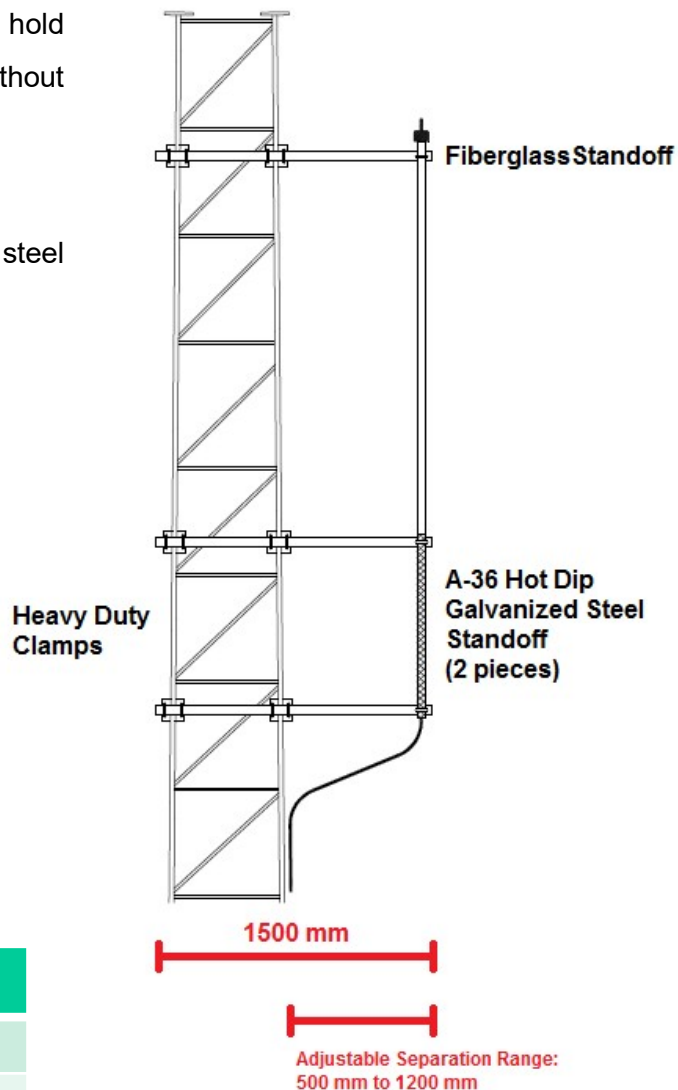

LM-HD is a heavy duty all weather resistant mount kit for omnidirectional antennas. LM-HD is designed to mount an omnidirectional antenna to a tower leg (either self supported or guyed). This kit features a fiberglass top standoff that will hold securely the antenna tip to the tower to avoid deflection, without causing electromagnetic interference.

In the bottom, the LM-HD has two hot dip galvanized steel standoffs that will hold antenna base firmly to tower leg.

LM-HD is supplied complete with nuts, bolts and clamps.

### FEATURES

- Rugged Design, Heavy Duty fiberglass top standoff
- A-36 Hot Dip Galvanized Steel bottom standoff (2 pieces)
- Total Length: 1500 mm
- Adjustable separation from tower leg ( 500 mm to 1200 mm)
- Heavy Duty Clamps

### Mechanical Specifications

Total Length	1500 mm
Separation from Tower Leg	500 mm to 1200 mm
Hot Dip Galvanized Steel	ASTM A-123
Max Tower Leg Diameter	100 mm
Max Antenna Base Diameter	100 mm
Max Antenna Tip Diameter	100 mm
