

## VHF Mobile Unity Gain Antenna, R2TL

R2TL is a unity gain mobile antenna for VHF applications.

It's a medium duty antenna for harsh use in utility trucks and demanding mobile applications.

It features a heavy duty spring in the base to help reduce damage to the antenna.

It features a UHF PL-259 connector

PL259

### Electrical Specifications

Frequency Range	136-174 Mhz
VSWR	< 2:1
Gain	Unity
Impedance	50 ohms
Maximum Power	100 watts
Polarization	Vertical
Operational Temperature	-40°C to +80°C
Horizontal Beamwidth	Omnidirectional

### Mechanical Specifications

Length	385 mm
Weigth	0.4 Kg
Connector	Male UHF PL-259

### FEATURES

- Stainless Steel construction
- Unity Gain
- Copper connector
- Heavy duty spring on base
- UHF PL-259
- 50 ohms impedance
- VSWR: 1.5:1
