

VHF Mobile Adjustable Antenna, NLT-4

NLT-4 is an adjustable mobile antenna for VHF applications.

It's a well designed heavy duty antenna for harsh use in utility trucks and demanding mobile applications.

It features a heavy duty spring in the base to help reduce damage to the antenna.

It requires a NMO 3/4" mount.

Electrical Specifications

Frequency Range	144-174 Mhz
VSWR	< 1.5:1
Gain	3.0 dBi
Impedance	50 ohms
Maximum Power	200 watts
Polarization	Vertical
Operational Temperature	-40°C to +80°C
Horizontal Beamwidth	Omnidirectional

FEATURES

- Stainless Steel construction
- Adjustable
- 3.0 dB gain
- Long Life: 10+ years
- Copper connector
- Heavy duty spring on base
- NMO 3/4" mount
- 50 ohms impedance
- VSWR: 1.5:1

Mechanical Specifications

Length	1200 mm
Weight	0.32 Kg
Connector	NMO 3/4"
